

# APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUN 15 1981

Returned to applicant for correction.....

Corrected application filed.....

Map filed JUN 15 1981The applicant Jack EvansP.O. Box 787

Street and No. or P.O. Box No.

, of Goldfield

City or Town

Nevada 89013

State and Zip Code No.

....., hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is an underground source

Name of stream, lake or other source.

2. The amount of water applied for is 1.00 second-feet

One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for mining, milling and domestic purposes

Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: within the NE14, NW14, Section 29

T2S R43E, the Southeast Corner of Section 29, T2S R43E Bears S 43°03'32"E, a

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

distance of 5735.45 feet.

it should be stated.

6. Place of use NW1/4 NW1/4 Sec. 29, NE1/4 NW1/4 Sec. 29, T2S, R43E, MBM

Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) a 4X8 ft. timber lined vertical shaft, 70 ft.

deep water to be pumped to a storage tank at the point of diversion.

State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

9. Estimated cost of works.....\$8,000.00.....
10. Estimated time required to construct works.....1 year.....  
If well completed, describe works.
11. Estimated time required to complete the application to beneficial use.....1 year.....
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

450 GPM, 24 hrs., a day, 365 days a year, to be used principally for the leaching process of gold recovery.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other groundwater development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the groundwater basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 1.825 million gallons annually.

Actual construction work shall begin on or before N/A

Proof of commencement of work shall be filed before N/A

Work must be prosecuted with reasonable diligence and be completed on or before September 14, 1983

Proof of completion of work shall be filed before October 14, 1983

Application of water to beneficial use shall be made on or before September 14, 1985

Proof of the application of water to beneficial use shall be filed on or before October 14, 1985

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed IN TESTIMONY WHEREOF, I, PETER G. MORROS
